

The Premiere Conference on Open Tools Development and Integration

Experience EclipseCon 2004, a technical conference that brings together the Eclipse open source project, community, and ecosystem. The program features keynotes, tutorials, demos, poster sessions, exhibits, and Birds-of-a-Feather sessions. Learn and join in with the community and the members of the open source project. See the breadth and depth of the Eclipse community and commercial offerings and understand the value it provides to you and your organization.
