Agile tooling at Eclipse

tuleap.eclipse.org
Why another tool?

- **Support of Agile methodologies at Eclipse**
  - Agile is recognized as a good practice;
  - Most of us are accustomed to Agile methodologies in our corporate setup;
  - Because not every nail is suitable for the bugzilla hammer we currently have.

- **Expected Benefits**
  - Improve open-ness by adding transparency and visibility;
  - Communicate status and future work efficiently.
Kanban

- Show-up your flow
- Identify the bottlenecks
- Improve the throughput

Scrum

- Centralize your backlog
- Plan releases & iterations
- Visual sense of progress
